### THE PATENT ADJUSTABLE HOOD.

This Hood is designed to keep the lining of a Biggy Fop from become ing soiled when being driven on the road in a lowered position, and is useful at all seasons of the year, as it keeps out the mid, dust and rain in the summer, and the snow and sugar in the winter. In addition to keeping the liming from being soiled from any of the causes before mentioned or from becoming faded from the rays of the sun straking it, it also saves much trouble required to brush up and clean frequently the lining of a buggy. For that is not protected by one of these Hoods.

# VALENTINE'S Ready-PAINTS.

### TURN ON THE LIGHT.

For many years the honest voters of Pennsylver is have been demanding that the high tashall be tained on the transic charged time without number that a combination of public men have unjustly profited through the handling of the public funds. It has been clearly shown that a system provailed whereby great officence was exerted in favor of certain political leaders, rendering their power ilmost absolute. Every effort has been m de, but without success to ascertain hew much the state treasury is "worth" to the ring which has so long controlled

t It has been noted that in every contest over candidates for this important thee, those specially concerned have becu extremely watchful and vigorous, evidently determined not to lose the election under any circumstances Even when a Damocrat was elected, twentyfive years ago, he was made the victim of a ioul conspiracy by these public one m is. At no time since have any chances much noise in this campaign, but they ie haid at work in every county, and n every election district, on November of their friends will be active from norning till night

What does this mean? The answer is elf evident there is something to be co cealed and a great power to be re tuned. Under no circumstances car the ring ifford to let a man like L. A Lo sy get into the treasury. He could not be deceived, headed off or con inited. Therefore orders are out for his defect cost what it may. What will the voters do about it? Surely every D m scrattc citizen will work and vote tor the reform candidate and there ought to be enough virtue and independence in the Republican party to accomplish the v ithiow of the treasury combine this tipe. The issue is so plain that none need be deceived. There is no partisan interest it stake. It is simply a question of honest administration of the public ununces, with the turning on of the ig it showing all that may be recorded oncerning past transactions | Let there be a un on of forces at the polls which will rescue the treasury or Pennsylvania from the fron grip of the long entrenched  $\mathbf{Q} + \mathbf{i} \mathbf{y} + \mathbf{m} \mathbf{g}$

# CLOAKS AND SUITS.

The snappy weather of the last few weeks, and the certainty that has been forced into the minds of the people, that winter is on the way, has given our Ready-to-Wear Department extraordinary business. The varied lines we carry, in full assortment of styles and sizes, allow few to go away disappointed who really desire to buy. Manufacturers have been unusually slow in filling re-orders and orders for special garments, owing to the fact of large business and slow deliveries of piece goods from the mills. We give an extract from a leading commercial paper showing "So far as can be learned, the deliveries of piece

goods do not improve to an extent that is likely to relieve the situation within the near future. Particularly is this true of goods mostly in demand, and generally is it true of nearly all fabrics that enter into the composition of gaiments." We therefore advise intending purchasers to attend to this want of a

Wrap, Tailor-made Suit, Walking Skirt, Dress Skirt, Waist early to avoid disappointment as well as probably a saving on the purchase price. We will have no goods in stock but those rightly made, and no one can buy ready-made goods during a busy season, from first-class concerns, anless he has placed an initial order at the beginning, and we feel that unless you are satisfied with sweat shop garments the advice given above is much to your advantage. We, in part, saw the rush that would likely come in October and we are well prepared at present, but sizes and styles are thinning out rapidly now.

#### SOME SUGGESTIONS AS TO THE KIND OF HORSES TO BREED

The bre der of to-day who will make up his mind what the market wants, and will work with that end in view, and will get the best mares he can afford, and use the best sires he can get, will succeed in raising either light or draft his mind what he expects to do, and after looking over his mares, he should best is none too good) and breed for one purpose, and try to get his stock uniform, so that when the buyer comes to see the matured horses he can mate them up And this reminds me of a story told me Kansas. He said he was in a country town one day, and a large farmer cam horses. He told him he did, and asked The buyer went out to see them, and he said the farmer told the truth, he had forty-five head, and they were all kinds Out of the forty-five head he found only two he could use. The remainder were match up Now, this man made a failure of the horse business. He bied to a sire because he was handy and cheap In the sar a county was another farme who had some horses to sell, and he also saw the same buyer and asked him t thirty head of high grade Percheron

orses After a breeder has made up ook for the best sire he can find (as the y one of the largest buyers in cential o see him and asked if he wanted to buy me out to see his stock, saying he had Lorses The buyer went out and bough murketable horses. This man made a success of the horse business, for he had an object in view, and bred to the best all the time. The buyer could afford to pay him more for his stock, as he did no stock was fat and ready for market One thing I wish to impress on the mind of the farmer breeder who depends on good for your mares, and when you ge a good sire that produces good, uniform because some smooth talker comes in ever imported. Use full-blooded horses if pessible, as by doing this you are more sure of getting a uniform class, but I are getting something good from a sire was a large Percheron sire, and when the owner made the statement in publi that there were not two carloads of ma Now this I thought strange, as I knew the horse had been a successful breeder try; so I asked hun if this was the truth good salable horses, and the buyers gave more for them than the owners thought them worth, so they were sold and ship ped out of the country -1 H TERRY before Kansas State Board of Agricul
